Taylan Öztürk

## PROFILE

An enthusiastic character significantly passionate about his skills and developing himself embracing the profound philosophy of chess in his life. Programming has been a longstanding one of his major passions since childhood as he never gave up on learning new and improving himself in programming despite juggling numerous responsibilities in terms of particularly school. Programming and chess aside, martial arts is another big enthusiasm and inspiration.

## PROJECTS

**tic-tac-toe**
A minimax algorithm implemented tic tac toe app built with React.

**realtor-site**
This project, in which I made a personal website for my real estate agent neighbor, is also the first time I made money by programming.

**verbingo**
Verbingo is a little minigame to help you learn how to conjugate verbs in Turkish. At the same time, it is a project I did as an end-of-term assignment from the Turkish Language and Literature lecture.

**turkish-literature-calendar**
The Turkish Literature Calendar is a web application that I made for my literature teacher allowing specific days regarding the Turkish Literature to be shown nicely.

**toal-website**
A website that I made for my school's podcast organization.

**botinstein**
A Discord bot made with Discord.js for my school's Discord channel.

**voltran-math**
A tool that I've developed for my FLL team performing us to calculate our needs.

**whatsapp-cli**
A command line interface for helpful whatsapp-web operations like scheduling messages and so on.

**cboard**
A simple CLI tool helping users copy what they need such as github tokens, google passwords and etc

## SKILLS

- Python
- PyQt5
- Django
- JavaScript
- ReactJS
- NextJS
- HTML & CSS
- Tailwind CSS
- Boostrap
- DiscordJS
- ExpressJS
- NodeJS
- Rust
- Linux

## LANGUAGES

**Turkish**
*Native*

**English**

## INTERESTS

**Chess**
*I'm literally a chess lover. Chess is art. Chess is science. Chess is philosophy. Chess is life. Chess is everything!*

**Music**
*I don't produce music for now but listen to so much. With that being said, I think, I really have a good taste of music. I absolutely adore the mesmerizing melodies and captivating harmonies crafted by the criminally underrated bands Shamrain, Anathema, and Thurisaz.*

**Martial Arts**
*I've never had professional education in martial arts, but I've been training myself for years. The IP Man movie series has had a profound impact on my inspiration, particularly in Chinese Martial Arts since my childhood. I greatly admire the way they not only teach self-defense techniques but also impart pivotal life lessons and philosophies.*

**English**
*In general, learning languages appeals to me. I've loved English from a very young age and have tried to improve myself. Even though I earned a C2 certificate from my course, from my point of view, it is more appropriate to describe myself at C1 level.*

## CERTIFICATES

**FLL Tournament**
*First-Lego-League 19th season Izmir High School Local Tournament*

**English C2**
*(The link to the certificate is going to be added soon)*
